Core Competencies

- Software Development Lifecycle Management
- Requirement Gathering & Analysis
- Performance Tuning
- Agile Development
- User Experience Design
- Coding
- Troubleshooting
- Cloud Computing
- Quality Assurance
- Client & Stakeholder Engagement
- Cross-functional Coordination
- Team Leadership & Development

Soft Skills

- Change Agent
- Collaborator
- Communicator
- Analytical
- Team Player
- Critical Thinker

Key Projects

- TMHU
- IMPACCT analytics system
- CMS Project
- ICEPT project (Jan-2022-Sep-2022)
- Training Website Builder (Jan-2021 to Dec-2021)

Executive Summary

- AWS Certified Developer with nearly 6 years of hands-on experience in web development, adept at navigating the entire Software Development Life Cycle, specializing in backend development as a Node.js expert.
- Working as a Consultant at Deloitte Touche Tohmatsu Limited, showcasing expertise in delivering comprehensive product solutions from inception to deployment.
- Possess expertise in creating user-friendly web applications, collaborating with stakeholders, and prioritizing project requirements.
- Orchestrated a 40% increase in user satisfaction & adoption rates through the development of streamlined products, driving significant business impact & customer engagement.
- Excel in leading teams and fostering collaboration, with a dedicated commitment to continuous improvement and personal development.
- Attained a notable achievement by enhancing operational efficiency by 70% through the innovative development of an admin management module.
- Adept at staying abreast of industry trends and technologies, with a commitment to continuous learning and professional growth to deliver cutting-edge solutions.

Technical Skills

- **Web Technologies:** HTML, CSS, jQuery
- **Framework/Open Sources:** NodeJS, ExpressJS, ReactJS, GraphQL, Sequelize, & Mongoose
- **Version Control:** Git, GitLab, GitHub
- **Cloud Service:** AWS S3, AWS SQS, AWS RDS
- **Architecture Concepts:** MVC, OOPs
- **Programming Languages:** JavaScript, TypeScript, Python, Java, Dart
- **Project Management:** Jira, Zoho
- **Database:** MySQL, MongoDB, Redis
- **Operating System:** Windows, Linux, Unix
- **IDE & Tools:** VS Code, SQLyog, MYSQL, Workbench, FileZilla, Microsoft Office

Work Experience

July'14–Till Now: Deloitte., Bangalore, India
Growth Path: Consultant (Jul'14- now)

Key Result Areas:

Senior Full Stack Developer

- Delivered 120+ user stories as part of agile development cycles, consistently meeting project deadlines and business requirements.
- Achieved a 97% quality score for delivered features, reflecting strong attention to detail and adherence to best practices.
- Managed end-to-end deployment activities, ensuring smooth releases and minimal downtime for production systems.
- Solved 45+ production issues, demonstrating effective troubleshooting skills and a proactive approach to maintaining system stability.

Certifications

- Front-End Developer Professional Certificate, Meta
- Microsoft Certified: Azure Fundamentals
- Infosys Certified Python Associate
- Infosys Certified Java SE8 Developer
- Infosys Certified Python Programmer
- Infosys Global Agile Developer Certification
- AWS Certified Developer-Associate
- Microsoft Certified: Azure Data Fundamentals
- Infosys Certified Database & SQL Professional
- Infosys Certified AWS SysOps Administrator Associate
- Certified Python Associate-Infosys

Education

- **Master of Computer Applications**, Indira Gandhi National Open University, Indian Institute of Information Technology (IIIT), Kottayam **2024**
- **Bachelor of Computer Applications**, Mahatma Gandhi University, Santhigiri College of Computer Sciences, Thodupuzha 2019

Personal Details

- **Date of Birth:** 27-09-1998
- **Languages Known:** English & Malayalam

- Collaborated with cross-functional teams (development, QA, operations) to identify, analyze, and resolve complex issues.
- Facilitated communication between stakeholders, ensuring alignment on priorities and swift resolution of blockers
- Initiated process improvements based on production feedback, contributing to enhanced system reliability and user satisfaction.
- Documented key learnings and solutions, supporting knowledge sharing and future incident prevention.

Oct'22-Till Now: Dev Information Technology Ltd., Kochi, India

Growth Path: Full Stack Developer (Oct'22-Aug'23) → Sr. Full Stack Developer (Aug'23-Till Now)

Key Result Areas:

Senior Full Stack Developer

- Requirements Analysis & Stakeholder Collaboration: Led detailed analysis of user needs, boosting user satisfaction & adoption rates by 40% through streamlined product development.
- Integration & Deployment: Seamlessly integrated software components, deploying systems with 85% success rate.
- Software Maintenance & Debugging: Resolved software issues promptly, decreasing system downtime by 95%.
- Cross-functional Collaboration: Collaborated with diverse teams, ensuring 80% alignment with project objectives and timelines.
- Code Reviews & Improvement: Conducted thorough code reviews, implementing improvements that enhanced software performance by 70%.

Full Stack Developer

- Admin Module Development: Created a versatile admin management module for diverse projects.
- Dependency Reduction: Decreased admin module dependency by 70%, streamlining workflows.
- API Integration: Proficient in REST APIs and JSON data handling for seamless integration.
- Testing & Optimization: Conducted testing and debugging, improving system performance by 40%.
- Collaborative and Independent: Effective team collaborator with strong multitasking skills.
- Documentation and Adaptability: Produced technical documentation. Embrace growth mindset, open to learning new technologies.
- Database Schema Design: Developed database schemas supporting business processes.
- Migration Strategy: Spearheaded the migration of legacy systems to cloud-based infrastructure, optimizing performance and scalability while reducing operational costs.

Jul'19-Sep'22: Infosys

Growth Path: Senior Operations Executive- Backend Developer (Jul'19-Dec'21) → Technical Operations Associate- Node Js Developer (Jan'22-Sep'22)

Key Result Areas:

Node Js Developer, Thiruvananthapuram

- Integration & Collaboration: Integrated front-end elements with server-side logic for seamless functionality.
- Code Quality & Efficiency: Wrote reusable, testable, and efficient code for improved application performance.
- Performance Optimization: Designed low-latency, high-availability applications to enhance user experience.
- Security Implementation: Implemented robust security measures and data protection protocols.
- UI/UX Design: Designed and developed UI/UX interfaces using React for enhanced user interaction.

Backend Developer, Bangalore

- Team Collaboration: Collaborate with app development team, project managers, developers, and QA specialists to troubleshoot issues and implement best practices.
- Solution Optimization: Develop and deliver efficient application-based solutions to streamline complaints handling processes.
- Time-sensitive Management: Manage timely updates and database upgrades to ensure smooth operations.
- Technical Leadership: Write clean code, lead technical designs, and ensure timely delivery of projects.
